### Product description

The CITY fittings collection is a proposal for those seeking fashionable design and functional solutions. The concealed washbasin faucet from the CITY collection has a 35 mm ceramic cartridge, which enables smooth control of the water stream. Thanks to the ecological Water Save aerator, the water stream is always soft and aerated. It limits the water flow to 6 l/min. The concealed part of the fittings is a modern solution in the form of a box, which is easy to install and replace.
